Experience of the peer review process

Prof Gert Roodt, Managing Editor
SAJIP

Experience of the process

- External (independent) peer review
- Credible reviewers / panellists
- Clearly defined review criteria
- Opportunity to comment on the content / process (verify)

Value-add for the journal

- International benchmarking
- Process related issues
- Business related issues
- Bibliometric rating

Future strategies & issues to address

- Selection and appointment of editorial team
- Succession planning
- International listing

Suggestions for improvement

- Understand different business models
- OJP system can provide accurate statistics
- Research capacity development and article writing skills
